Themenplan

Online training course: The occupational health and safety committee and implementation of the company's occupational health and safety measures

Legal basis: An overview of the main occupational health and safety regulations

The tasks of the company's occupational health and safety actors:
- Who is responsible, and who supports us? (e.g. employer, occupational safety specialists, occupational physicians, etc.)

The occupational health and safety committee (ASA): Rights, obligations and duties

ASA composition, its role, and the tasks of various members

ASA members' roles and scope of action

Don't manage illness – improve working conditions!

How the ASA works:
- Taking stock: What are specific health problems in our company? What is the biggest burden on employee health?
- Shortcomings in the implementation of health and safety regulations
- Which approach is most likely to yield results?
- Setting realistic targets
- Implementation planning with a systematic approach

Tasks, rights, and options for works council members concerning occupational health and safety (overview)

Cooperation between the works council, the ASA committee and other occupational health and safety stakeholders:
- Who is responsible for what, and who supports us?
- How can we have a say about other stakeholders and their involvement?
- Implementation of DGUV regulation 2 (occupational physicians, occupational safety specialists)
